DOOR STYLE SELECTIONS

 **BISHOP CABINETS**

Home is our place for rest and comfort, for joy and memories. As we tailor our homes to suit the needs of our families, they become a reflection of who we are.

Because cabinetry is such an integral part of our homes, Bishop Cabinets makes each cabinet to order so that you can structure your living spaces to best suit your particular needs. But cabinetry is about more than just structure, it is also about beauty. The combinations of wood species, door styles and finishes that you will find within these pages will give you literally hundreds of thousands of possibilities, so that you can create that fashion which perfectly defines you.

In this booklet you'll find door styles from our Design Elements Collection, which features custom-tailored doors. These door styles allow you to combine your choices of wood specie, door and drawer front type to create one-of-a-kind fashions.

The possibilities are limited only by your imagination. The images shown on the following pages are only a small taste of those possibilities. After you've spent some time pondering what you might like, we invite you to visit your Bishop dealer to select your perfect style.

Oak

Finish Shown  
Custom Paint

Doors  
All Square

Drawer Fronts  
Applied Molding  
Slab for shallow  
& deep

# Inset Door Styles

## Beaded Frame Option

When an inset door style is used, cabinet face frames can be beaded as shown in the photo to the left.

When attempting to recreate the look of dark-stained antique furniture, it is often better not to bead the frames, as shown in the photo to the right.

Beaded frames are recommended with painted finishes as shown in the photo below.

# Specialty Mullion Doors

If you are looking for something a little different to create a focal point, one of these specialty mullion doors with your favorite glass may be just what you are looking for. Even though our cabinetry is considered semi-custom, we still enjoy being able to offer truly high-end accent doors. In fact, these doors are so custom that you actually approve a shop drawing of each one before they are hand-made just for you.

# Wood Species

Cherry

Hickory

Maple

Oak

Knotty Alder

Rustic Cherry

Rustic Hickory

Rustic Maple

Rustic Oak

*When Rustic Cherry, Rustic Hickory, Rustic Maple or Rustic Oak are chosen, the doors and drawer fronts are made from rustic wood and other components are made from normal wood.*

*When Knotty Alder is chosen, the doors, drawer fronts and finished plywood components are made from knotty wood and all other components are made from normal wood.*

*For cabinet doors, we use rustic/knotty wood for the center panels but normal wood for the framing.*

*The combination of rustic/knotty woods and normal woods allows the doors and cabinet boxes to be structurally sound, while still providing the rugged character of rustic and knotty woods.*
